**MORE NESCHEN MACHINES
AVAILABLE FROM 2018 ONWARDS**

In 1974 the first Neschen Laminator K600 was introduced at Photokina. The success story continues!

The Neschen Laminators are back and better than ever:

Designed by Neschen - manufactured in Europe - added value for our customers all over the world.

The new NESCHEN EcoLam1650 is the perfect entry into the world of professional laminating for sign makers and ambitious photographers. Thanks to the excellent price-performance ratio of the NESCHEN EcoLam 1650, you will increase your profitability. Benefit from a wide range of print finishing options such as the processing of display media, photographic and art prints.

NESCHEN ECOLAM 1650

The NESCHEN EcoLam 1650 laminator has been specially designed for mounting and laminating prints with a width of up to 1650 mm. The auto-grip material shafts mean user-friendly material loading and the easy to use control panel are just two features that make professional laminating easier than ever.

- 4m/min maximum processing speed for high productivity and low throughput
- Manual pressure and speed adjustment for maximum flexibility
- External brakes for better adjustment of the film tension
- Manually adjustable roller opening of 40 mm - the majority of substrates can be used
- Ergonomic and user-friendly control panel on top of the machine
- Designed by NESCHEN – manufactured in Europe

Maximum processing width	1650 mm	Table height	870 mm on wheels, adjustable up to 950 mm
Maximum processing speed	4 m / Min.	Net weight	250 kg
Maximum contact pressure	1,2 N / mm ²	Transport weight	300 kg
Maximum substrate thickness	40 mm	Transport dimensions	Width 2300 mm
Roller heating	-		Height 1550 mm
Width	2175 mm		Depth 950 mm
Height	1220 mm	Power supply	1N/PE 230VAC/50-60 Hz; 230W 1A
Depth	500 mm
